Nick

Thank you for sending through this documentation

I have made a few changes to the statement of need and added an Impact assessment to the Statement of Significance as well as some pictures. The other documents make sense to include. You will be able to upload them individually

If you are happy, then I suggest that you submit via the online faculty system. You will need a PCC resolution to accompany the application. On one of the forms you have to say if your inspecting Architect has been involved with or consulted on the proposals. You can say that I have been involved with it.

Regards

Andy

Hi Andy

Here is the draft faculty application for your comments....
